To help and assist you in making your business a success, you will have the proven resources and brand awareness of Europe's leading Image Consultancy behind you.

Training Programmes

Colour Me Beautiful is committed to offering the most up-to-date training, structured in a way which allows you to develop, learn, progress and succeed according to your personal goals. Our programmes are professionally designed and have been perfected over time to ensure that they give you the confidence and knowledge to expertly advise your clients and to build a long term successful business.

All courses are highly interactive and include hands-on experience with client volunteers. This practical consulting experience during training helps to maximise your confidence.

When you train with **Colour Me Beautiful** as a Personal Stylist, Colour & Make-up or Image Consultant you have the opportunity to run your own business, on a full or part-time basis, whilst enjoying the privileges and benefits of support and marketing from a leading brand. Your income is generated from fees for services, enhanced by the sale of cosmetics and other **Colour Me Beautiful** products.

Most consultants work from their home where they allocate space for a studio. Some go on to establish themselves in commercial premises; others will add this new opportunity to their existing business. Personal styling and image consulting are ideal if you want to build a 'mobile' business or if your circumstances mean that you often relocate to different cities or countries.

With smaller classes in each course, we ensure you benefit from personal attention as well as interaction with your peers. Courses generally run from 9.45am to 5.30pm and include one hour lunch break.

If you have any questions you are welcome to contact us using the email address or telephone number shown at the bottom of each page of this brochure.
